

Experiments of the KMM4612 Chemical Engineering Laboratory 2 course that could not be carried out on 03.04.2025 due to holiday will be carried out on the dates and times specified below. Apart from this arrangement, there has been **no change** in the experimental schedule and it will continue as published at the beginning of the semester.

Experiment No	Experiment Name	Experiment Date	Experiment Time
1	Climbing Film Evaporator	17.04.2025	10.30
2	Distillation Column Applications	21.04.2025	13.00
3	Liquid – Liquid Extraction	28.04.2025	13.00
4	Solid – Liquid Extraction	17.04.2025	09.00
5	Kinetics of the Iodination of Acetone	21.04.2025	14.30
6	Saponification Reaction of Ethyl Acetate	28.04.2025	14.30
9	Residence-Time Distribution in Packed Column	17.04.2025	10.30
10	Hardness Removal with Ion Exchange Method	17.04.2025	11.00
